ADMINISTRATOR FOR LAS DELTAS MUTUAL WATER COMPANY COMMUNITY ENGAGEMENT MEETING SUMMARY OCTOBER 2, 2024, AT 6:00 PM FIREBAUGH COMMUNITY CENTER

The first quarterly community meeting for Las Deltas Mutual Water Company (MWC) was held on Wednesday, October 2, 2024, at 6:00 PM at the Firebaugh Community Center. In attendance were one community member, Hamish Kellam, Stacey Claros, Heather Bashian, and Amanda De Anda from Provost & Pritchard (P&P). Additionally, two Linguistica interpreters attended in person, and two participated via Zoom. Multiple Administrator and translation staff were in attendance in anticipation of high customer turnout.

Due to the low attendance, P&P decided to postpone the meeting to ensure broader community participation in the future. While waiting for additional attendees, the P&P team engaged with the attending community member, who had previously served on the Las Deltas MWC water system board. They discussed potential outreach methods, and she shared valuable insights on community engagement based on her experiences with past meetings hosted by the board. Hamish provided his contact information, emphasizing that the Administrator (P&P) should be notified in the case of any emergencies.

At approximately 6:40 PM, Hamish officially announced the postponement of the meeting. The P&P team remains committed to fostering community involvement and will continue exploring effective outreach strategies moving forward.
